FIRE STATION

Plaza

Once Doha's main fire station, this repurposed 1980s building has been reimagined as one of the city's most distinctive cultural venues. Retaining much of its original structure and character, its honeycomb façade has become a recognisable feature of Doha's architectural landscape. Today, the Fire Station supports artists through its residency programme and presents a rolling programme of exhibitions that foreground contemporary creativity from Qatar and the wider region.

The building's industrial character makes it particularly well suited to events that benefit from a design-led setting. At its centre, the open-air 3,300 square metre Plaza, framed by the iconic façade, accommodates large-scale receptions and evening gatherings for up to 1,000 guests. Inside, a contemporary Cinema with tiered seating and integrated audiovisual facilities provides a focused setting for screenings, lectures and presentations.

Hosting an event at the Fire Station places guests within an active cultural environment, where the presence of artists and exhibitions lends occasions a sense of creative relevance. Fully supported by QC+ Hospitality's dedicated events team, each event is delivered with meticulous attention and care.
