OUR LOGO GUIDELINES

OUR BRAND LOGO

PRIMARY BRANDMARK

The primary corporate brand-mark is one of the brand’s most valuable assets and should be used whenever needed.

The ruby accents on the ‘T’ and the amber dots that compliment ‘visit’ are reference to Arabic calligraphy – further reinforcing our heritage.

PRIMARY PALETTE

Our primary colour palette is designed to represent Qatar in the most premium way, enriching the user experience and immersing them in our culture. The palette features four key colours, each provided with values for both print and digital use.

For print materials, such as litho or digital formats, use the specified print values.

For all screen-based applications - web, TV, email signatures, and digital documents like Word or PowerPoint—use the screen values to ensure consistency and vibrancy across platforms.

HIGHLIGHTING MOMENTS

The archway has been meticulously designed to emphasise key moments and capture the essence of beautiful interactions, particularly those that occur between individuals. Its purpose is to accentuate dynamic and meaningful scenes, creating a focus on the magical and significant moments shared among people.

While the archway can be used to highlight various types of actions, it is not intended for use in every context.
